From Secretariat's Desk

Dear Esteemed Member ISSP,

Greetings from the Secretariat of ISSP!

I take this opportunity to thank each and every one of you for giving me opportunity to serve as the Hon. Secretary of ISSP. We are indeed privileged to be part of an association that started as a dream of our seniors and was guided and nurtured by the vision of many great and noble stalwarts. For me it is a very special privilege to be its Hon. Secretary, having served the association in various capacities.

All these years' efforts have been made in right direction and we are simply trying to carry forward the legacy. As we all know, pain medicine as a speciality has been increasing at a very fast pace and this phase of rapid evolution provides us with endless opportunities to learn, experience and share. We all have to make it from the new speciality to the most sought after speciality. I welcome you all to contribute in that would help us share all that we stand for.

We are looking ahead with hope and a positive attitude to see an even more vibrant and academically active association that can offer a meaningful platform to our younger colleagues. We all need to work hard, everyday to take this speciality of pain medicine to new heights keeping in mind the ethics and the zeal to learn and share knowledge. We all are working very hard and doing good job in the speciality. We just need to create our own evidences based on the treatment we provide and the population we treat.

ISSP will soon have its own protocols and guidelines and our SIG's are working hard to give them a better shape. I seek the Good wishes and blessings of seniors, friends and all the members in the coming years.

LONG LIVE ISSP!

Jai Hind

President's Message

Dear Friends,

Pain medicine is advancing fast in our country. It is becoming popular amongst our colleague and many physicians are inspired to become a full-time pain physician. It is our responsibility to guide them and help them to grow their carrier. At the same time, we must make this specialty popular among general people so that our patients suffering from pain are benefitted by our new pain physicians and new pain physicians are getting adequate patients to sustain their practice exclusively in this specialty.

Keeping these two-primary objectives, our new office bearers lead by our dynamic secretary Panakj Surange are working hard. We have already announced country wide awareness camps and press meets to spread awareness among general people. This will help our country's sufferers to get proper treatment of their painful conditions.

Ours academic wing, Indian Academy of Pain Medicine (IAPM) lead by our dean Bibhu Kalyani Das and registrar Pradeep Jain is working nicely. Many senior pain physicians are interested to have this fellowship (FIAPM). Our aim is to bring a uniform curriculum in pain medicine across the country and uniform qualification among practicing pain physicians. We dream to make it a fellowship (FIAPM) of international repute and we are planning to allow international participants to sit for this fellowship examination in future.

We must not forget that a medical specialty can grow only with good researches. We encourage all new & senior pain physicians to publish their works our journal, Indian Journal of Pain. Our chief editor Kailash Kothari is doing excellent work to improve this journal. Our job is to send good articles to make this more popular.

I request all members to send suggestions to improve society's activities as well as to participate actively in different activities of ISSP. Unitedly we can take our specialty to a new height.

Long live ISSP!

ISSP STATE CHAPTER ACTIVITIES

Chandigarh Chapter Activities

A continuing medical education (CME) program was organized by the Indian Society of Study of Pain (ISSP) Chandigarh City Branch, and the Department of Anaesthesia & Intensive Care, Govt. Medical College & Hospital (GMCH), Chandigarh, on 7th August 2018 at GMCH Chandigarh.

The theme of the CME was: Chronic Pain Management - Perspectives from East and West. Prof. BS Chavan, Director Principal of GMCH, was the Chief Guest. The Meeting was addressed by Prof. YK Batra, President of ISSP Chandigarh, Prof. S Gombar Head of anaesthesia department GMCH, and Prof. Sukanya Mitra, Secretary ISSP Chandigarh.

Dr ML Sharma, consultant Anaesthetist and pain specialist from the Walton Centre in Liverpool, UK, provided the western perspective on pain management in cancer and trigeminal neuralgia. He used video clips of balloon ablation of trigeminal neuralgia to make his lectures lively and directive. Both the talks were very informative and they provided the audience with the much needed western perspective. On the other hand, eminent speakers from PGIMER and GMCH Chandigarh presented the eastern perspective. Prof. YK Batra, President of ISSP Chandigarh, Consultant Anaesthetist in Max Super speciality Hospital Mohali, and Former Head, Department of Anaesthesia, PGIMER Chandigarh, gave a captivating and topical talk on "Pain and addiction – keeping our eyes open". Dr Uma Rathi from GMCH Chandigarh presented "A curious case of unilateral mastalgia". Dr Jeetinder Makkar from PGIMER Chandigarh spoke on central vs. lateral canal stenosis. Finally, there was an informative panel discussion on pain management in pancreatic cancer, where multidisciplinary speakers spoke on different aspects of management of this very painful condition. All the sessions were chaired by eminent academicians from GMCH, PGIMER and other senior consultants from the Tricity.

The CME was attended by nearly one hundred professionals from the Tricity including orthopedic surgeons, neurosurgeons, radio therapists, oncologists, psychiatrists and pain physicians.
